## Directions

**Step 1:** Thin down Bananarama with a little water then pour and roll the paint on the inside of the pitcher and mugs that are white on the outside.

**Step 2:** Apply 2-3 coats of Polar Bear to the outside of the pitcher and mugs – except for the handles.

**Step 3:** Stamp the word LEMONS near the top of the pitcher. See photo mug placement.

**Step 4:** Trace the pattern of the lemon and the leaves.

**Optional:** Apply 2 coats of Snowstorm on the whole lemon (not the sliced lemon).

**Step 5:** When the Snowstorm is dry to the touch, paint 2-3 coats of Smiley Face on the whole lemons. Then lightly shade the left side of each lemon with Kermit. Paint 1 coat of Smiley Face on the lemon slice, leaving the outside of the slice and the center white (see photo). Then, using a detail brush, paint the outer circle edge (lemon peel) with 2 coats of Smiley Face.

**Step 6:** Apply 1 coat of Key Lime Pie to the leaves. Then lightly shade the left side of each leaf with Kermit. Using the detail brush, paint the veins of the leaves with Kermit.

**Step 7:** Apply 2 good coats of Black Lab to the entire 25¢ circle. When it dries completely, use a sgraffito tool or toothpick to scratch out the 25¢. Do not scratch too hard. You only want to go to the white paint layer. Do not scratch down to the bisque.

**Step 9:** Using the Fun Writer filled with Black Lab, make thin, scratchy black lines around the pitcher and mugs about an inch apart. The space between the lines does not need to be the same.

**Step 10:** Using detail brush or Fun Writer Bottles, fill in the lemon stem on the pitcher with Mocha Fudge and/or Kermit.

**Step 11:** Using the Fun Writer filled with Black Lab, make a thin, scratchy outline around the whole lemon, lemon slice and leaves

**Step 12:** Apply 3 coats of Bananarama to the pitcher and mug handles.

**Step 13:** Dip in clear glaze. Fire to cone 06.
